The Honorable Terry E. Branstad
Governor of Iowa
State Capitol Building
LOCAL

Dear Governor Branstad:

I am pleased to transmit the Iowa Uniform Crime Reports, 1983 Annual Release, to you. The report contains statistical information on criminal offenses reported to Iowa's law enforcement agencies, and on related matters. It continues a series of reports begun in 1976.

The report is based upon information provided to this Department by Iowa's local law enforcement agencies through the Iowa Uniform Crime Reporting System. As such, it is very much a cooperative effort between state and local agencies.

Very truly yours,

Gene W. Shepard

Gene W. Shepard
Commissioner

FIRE MARSHAL ● STATE PATROL

PREFACE

This report continues a series which started with the publication of the annual Iowa crime report for 1976 by the Iowa Department of Public Safety. This report contains data for 1983 and is the culmination of combined efforts of the Research and Development Bureau and the Data Services Bureau of the Iowa Department of Public Safety, and especially of Iowa's local law enforcement agencies. All of the state's 99 county sherriffs' offices, 121 municipal police departments, and the security departments of the three state universities contribute to the Iowa Uniform Crime Reporting System as direct reporting agencies. Additionally, all other local enforcement agencies report through their respective county sherriffs' offices.

The Iowa Department of Public Safety gratefully acknowledges the participation of the state's local law enforcement agencies in the Iowa Uniform Crime Reporting System, for they are clearly the lifeline of that system. Every direct reporting agency in Iowa has reported the required information to the Data Services Bureau of this Department, which is responsible for maintaining the crime reporting system, in every month since 1977. This is a record matched in few, if any, other states.

Preparation and publication of this report and others containing reported crime information for Iowa is the responsibility of the Department's Research and Development Bureau.

INTRODUCTION

Background

The 65th Iowa General Assembly enacted into law Chapter 749B of the Iowa Code requiring law enforcement agencies to submit reports of crime and arrests to the Bureau of Criminal Investigation. The following is a reprint of a portion of this law (now Section 692.15 of the Code) concerning Uniform Crime Reports.

> When it comes to the attention of a sheriff, police department or other law enforcement agency that a public offense has been committed in its jurisdiction, it shall be the duty of the law enforcement agency to report information concerning such crimes to the bureau on a form to be furnished by the bureau not more than thirty-five days from the time the crime first comes to the attention of such law enforcement agency. These reports shall be used to generate crime statistics. The bureau shall submit statistics to the governor, legislature, and crime commission on a quarterly and yearly basis.

During December 1974, the Iowa Bureau of Criminal Investigation, assisted by the Federal Bureau of Investigation, conducted schools throughout the State in the proper completion of Uniform Crime Reports. The schools were attended by most law enforcement agencies that were to contribute Uniform Crime reports. On January 1, 1975, the Iowa Uniform Crime Reporting program was implemented, with forms being sent to 210 agencies. Forms provided by the Federal Bureau of Investigation were used in implementing this program since most contributing agencies had previously submitted these forms to the FBI. Monthly reports were received from 209 agencies throughout 1975 and 1976. In 1977, the number of agencies submitting reports grew to 220, which remained the case in 1978. In 1979, the number of reporting agencies rose to 223, and in 1980, to 225. The number of reporting agencies was reduced to 223 in 1981. Since 1977, all reporting agencies have submitted data for every month.

In 1977 the responsibility for Uniform Crime Reports was transferred from the Bureau of Criminal Investigation to the Department of Public Safety's Administrative Services Division (which maintains UCR field personnel, receives raw data from contributing agencies, and performs computer analysis of data) and the Research and Development Bureau (which further analyzes data, prepares the quarterly and annual reports, and responds to information requests). Questions concerning this report or addressing the topic of crime in Iowa should be addressed to the latter. The Department of Public Safety welcomes comments and suggestions regarding this report.

Method of Reporting

Iowa sheriffs' offices and police departments each month report the offenses, arrests, and clearances known to them within their jurisdictions. Crimes handled by State and Federal agencies are reported by the local jurisdictions in which the crimes have occured. County sheriffs report activity occurring outside the jurisdictions of direct contributing police departments. With few exceptions, those police departments which contribute directly are in communities having populations of 2,500 or greater. The following table indicates the number of direct reporting agencies in each category.

TABLE I

Number of Reporting Agencies by Type, 1983

Agency	Number
Sheriff's Offices	99
Police Departments	121
Regents' Universities	3
Total Direct Reporting Agenices	223

Offense Classifications

The Iowa Department of Public Safety forwards Iowa crime figures to the Federal Bureau of Investigation for development of nationwide statistics. Because the national program receives reports from law enforcement agencies throughout the nation, uniformity of classification and reporting procedures is necessary to overcome variations in the definitions of criminal offenses among states. For this reason, UCR definitions do not conform to the definitions set forth in the Code of Iowa. It should be noted that the Iowa Uniform Crime Reporting System does provide for the collection of more detailed information in certain areas of particular interest to Iowa, particulary farm-related theft, than is true of the national system.

Information contained in the Uniform Crime Reports is divided between Part I and Part II Crimes. Part I Crimes are generally those offenses that are considered most serious in nature, occur with greatest regularity, and are most frequently reported to law enforcement agencies. For the purpose of analysis, Part I Crimes are further divided into violent and property crimes:[1]

Violent Crimes

Murder - the willful, non-negligent killing of one human being by another.

Forcible Rape - the carnal knowledge or attempted carnal knowledge of a female forcibly against her will.

Robbery - the taking or attempting to take anything of value from the care, custody or control of a person or persons by violence or by putting the victim in fear.

Aggravated Assault - an unlawful attack or attempt by one person upon another for the purpose of inflicting severe or aggravated bodily injury.

---

[1] These are also frequently called "crimes against persons" and "crimes against property", respectively. Further explanation of crime categories and scoring of offenses can be obtained in UCR publications of the Federal Bureau of Investigation and the Iowa Supplement to those materials produced by the Data Services Bureau of the Iowa Department of Public Safety.

Property Crimes

Burglary - Breaking or Entering - the unlawful entry or attempted entry of a structure to commit a felony or a larceny.

Larceny (except motor vehicle thefts) - the unlawful taking of property from the possession or constructive possession of another.

Motor Vehicle Theft - the theft or attempted theft of a motor vehicle. Farm equipment, construction equipment, boats, and airplanes are specifically exlucded from this category and are included under larceny.

Arson - the willful or malicious destruction or attempted destruction of property by fire.

The inclusion of arson in the Part I category, starting in 1979, necessitated a distinction between index crime and Part I crime. Figures for "index crime" include the seven categories of murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft, but not arson. This allows for comparisons of the index crime rate with previous years.

Part II crimes are all those not included in the Part I category. Figures for Part II crimes reported to police are not provided in the UCR system, as is the case for Part I crimes. Arrests for Part II crimes are included; however, most reports of crime deal exclusively with Part I crimes, and these receive primary attention here. In order to maintain comparability with prior years, arson arrests continue to be included in the Part II category.

Organization of This Year's Report

The organization of this report differs significantly from earlier ones. Part I of this report contains information on trends in reported crime in Iowa since 1977, a new feature, and analyses of statewide patterns of reported Part I offenses during 1983, which continues a feature of past crime reports. Part II of this report is a reproduction of a computer printout produced by the Data Services Bureau of the Iowa Department of Public Safety which contains, in tabular form, compilations of the raw data reported by local Iowa law enforcement agencies to the Iowa Uniform Crime Reporting System during 1983. Similar presentations have been contained in each past report.

Methodology

Contributing agencies submit monthly crime reports to the Department of Public Safety usually within approximately ten days of the end of the month. In instances in which incomplete or erroneous reports are received, corrected reports are normally submitted within approximately one additional month. The Data Services Bureau monitors agency submissions and has exerted considerable effort to achieve 100 percent reporting in every year since 1976.

Since the bulk of the report is made up of tables and charts, considerable effort has been made 1) to make these presentations understandable, 2) to put them in the most logical format, and 3) to make them useful to local law enforcement officials and others who might find them of use. Comments regarding the utility of these presentations are welcome.

To assist understanding of some of the tables shown here, the following definitions are presented:

Standard Metropolitan Statistical Areas (SMSAs) - areas including a core city of at least 50,000 population, and frequently consisting of additional smaller surrounding jurisdictions. Johnson County with Iowa City designated as the core city is also a SMSA.

Suburban Cities - cities of less than 50,000 population in Standard Metropolitan Statistical Areas, other than Iowa City.

Suburban Areas - all jurisdictions (including the sheriff) within a SMSA with the exception of the core city.

Rural Areas - those areas in non-SMSA counties which are served by the county sheriff or other agencies which do not report directly to the Uniform Crime Reporting system.

Suburban Sheriffs - county sheriffs in SMSA counties.

Non-Suburban Cities - all cities outside of SMSAs.

University Police - university campus security departments reporting directly to the Data Services Bureau. Since 1979, this category has included State University of Iowa, Iowa State University, and the University of Northern Iowa. In 1977, only Iowa State University was included. The State University of Iowa was added in 1978, and the University of Northern Iowa in 1979.

Factors Related to Crime

Caution should be exercised in making direct comparisons of crime, arrest and clearance data for different law enforcement agencies. Crimes reported relate to events while arrests relate to persons. A single reported offense may involve several crimes, several offenders, and several victims. Many arrests may involve only one such offense, while others result in clearing of multiple offenses. Listed below are some additional conditions which can affect the crime, arrests, and clearances that occur in different jurisdictions.

The same conditions may also affect the amount and type of crime reported.

1. Density of population and geographic size of community.
2. Composition of the population with reference particularly to sex, age, and race.
3. Economic status and mores of the population.
4. Mobility of the population.
5. Climate.
6. Educational, recreational, and religious characteristics.
7. Policies, effective strength, and standards governing appointment to law enforcement agencies.
8. Policies of the prosecuting officials, courts, and correctional agencies.
9. Attitudes of the public toward crime and law enforcement agencies.
10. The degree to which law enforcement agencies adhere to crime reporting standards.

Limitations of Report

Limitations of the Uniform Crime Reporting System have been debated extensively. Relying primarily on the reports of citizens, the figures included in Uniform Crime Reports reflect wide variations in the tendency of citizens to report crimes. Citizens may not report all crimes to law enforcement agencies, believing that there is nothing the police can do, fearing retaliation from offenders or embarrassment in revealing their own involvement in the offense or in other crimes.

The degree to which crimes are reported by citizens varies considerably from offense to offense and from area to area. Based on victimization survey studies completed in metropolitan areas and nationwide, the percentage of actual crimes reported to law enforcement agencies is related to such factors as:

1. the seriousness of the crime and/or value of goods lost;
2. the victim's perception of the likelihood of apprehending the suspect;
3. the presence or absence of insurance on the stolen property.

Data from victimization surveys indicates that reporting rates may be as low as one in five for some crimes (e.g. larceny). Thus, the Uniform Crime Reports do not contain a complete accounting of crime within jurisdictions. However, the UCR system constitutes the best network of state and national crime figures currently available. Vicitmization survey data also indicate higher reporting rates for offenses other than larceny, although many offenses in each category apparently do not come to the attention of law enforcement agencies.

The UCR system has been developed to serve as a tool to assist jurisdictions obtain comparative information which can assist in allocation of personnel, budgeting, deployment of resources, and the like. Under ideal circumstances, the system can be of great benefit to criminal justice agencies, other public and private agencies, and to citizens.

The inadequacy of record-keeping systems was a likely source of inaccuracy in uniform crime reporting in past years. Within the past decade, dramatic improvements in law enforcement records management and reporting systems have occurred which have likely had a considerable effect on the amount of crime reported within some jurisdictions. While major metropolitan areas were in the forefront of this improvement — obtaining sophisticated computer systems to record and keep track of reported crimes -- since the development of the Iowa UCR system, the most notable changes have been observed in some of the smaller jurisdictions, particularly in rural areas.

Although conclusive information on the subject is not available, it is possible that at least a portion of the increase in crime reported during the past few years is due to improvements in recordkeeping, particularly in the rural areas. Further, because these rural jurisdictions started with low levels of crime — both in raw numbers and rate per population — large percentage increases can take place without great numerical increases.

Changes in crime rates can also be affected by fluctuations which may be due to probability. Statistical theory indicates that the smaller the number in a sample - e.g., the smaller the number of reported crimes in a jurisdiction in a given year - the more susceptible the same is to relatively great variation in mean (average) and standard deviation. What this means, in lay terms, is that the reported crimes in smaller jurisdictions will vary more from year to year -- without necessarily indicating a trend -- than will reported crimes in larger jurisdictions experiencing more crime.

PART I

ANALYSIS OF REPORTED CRIMES IN IOWA

1977 - 1983 TRENDS

1983 PATTERNS

I. INDEX CRIME TOTALS AND RATES

Iowa experienced a decline in the number of index crimes reported to law enforcement agencies in 1983, for the third consecutive year. The 1983 total of 113,854 index crimes reported to Iowa's law enforcement agencies represented a decline of 4.9 percent from the 1982 total of 119,768 reported offenses. Figure 1 illustrates the trend in the annual total of reported index offenses for the state from 1977 through 1983; the 1983 total (113,854) exceeds the 1977 total (111,275) by 2.3 percent, and is 17.4 percent lower than the peak annual total of 137,763 index crimes reported to law enforcement agencies in 1980.

Figure 2 presents the annual rates (offenses per 100,000 population) of index crimes reported in Iowa during the years 1977 through 1983. As with the numbers of reported offenses, the index crime rate for the state has declined in each of the past three years, after three years of increases. In 1983, there were 3,904 index crimes reported to Iowa law enforcement agencies per 100,000 persons in the population of the state, which is 5.4 percent lower than the 1982 rate of 4127, and 17.4 percent lower than the 1980 rate of 4,729. The 1983 rate was 0.9 percent higher than the 1977 rate of 3868 index crimes reported per 100,000 people.

The distribution of index crimes recorded in 1983 in Iowa by individual offense categories is shown in Figure 3. In 1983, approximately 4.6 percent of the index crimes reported statewide were in the violent categories of murder, rape, robbery, and aggravated assault, while 95.4 percent were in the three property crime categories of burglary, larceny, and motor vehicle theft. Larceny accounted for approximately 68 percent of all of Iowa's reported index crime in 1983, followed by burglary at 23 percent. This pattern is very similar to those found in prior years.

TOTAL INDEX CRIMES REPORTED
IOWA
1977 - 1983

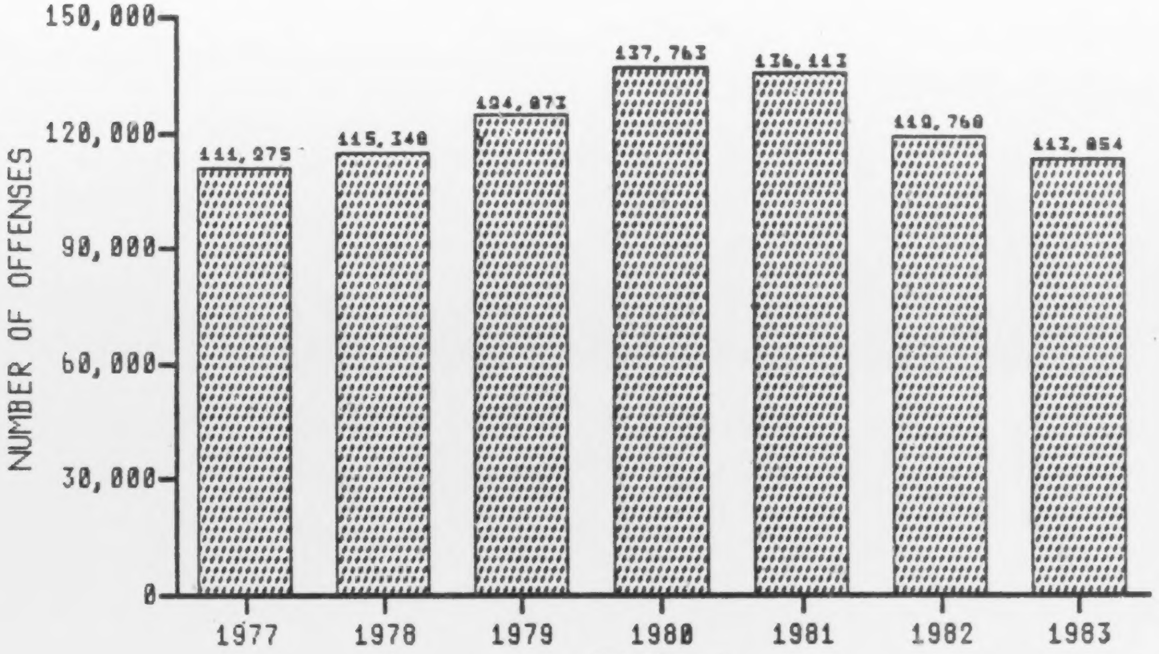

FIGURE 1

TOTAL INDEX CRIME RATE
IOWA
1977 - 1983

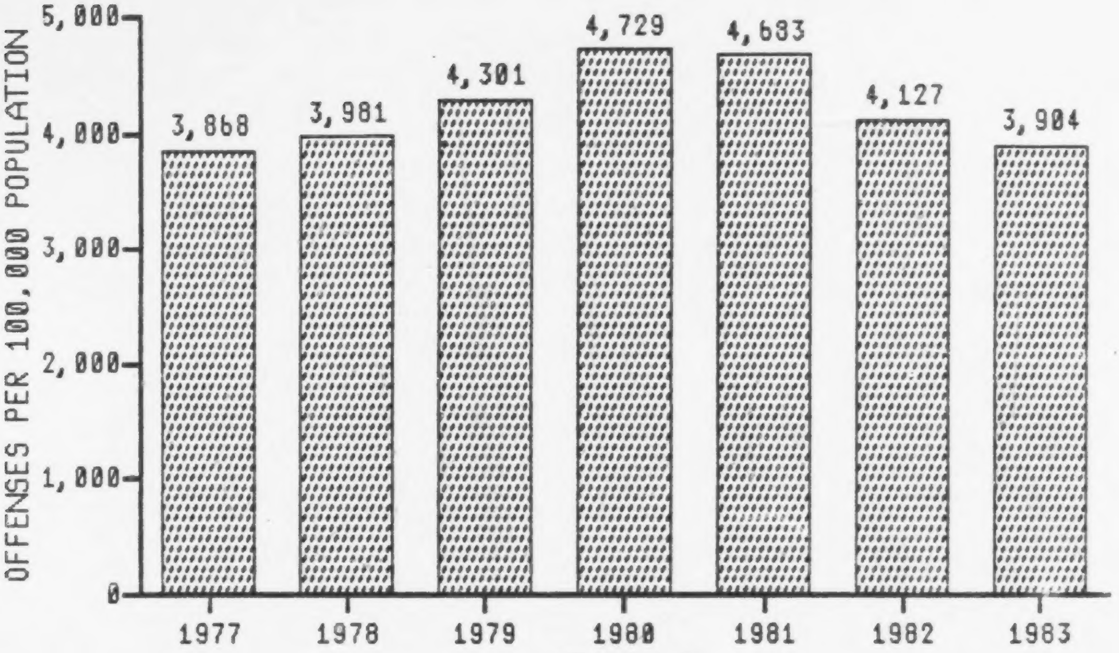

FIGURE 2

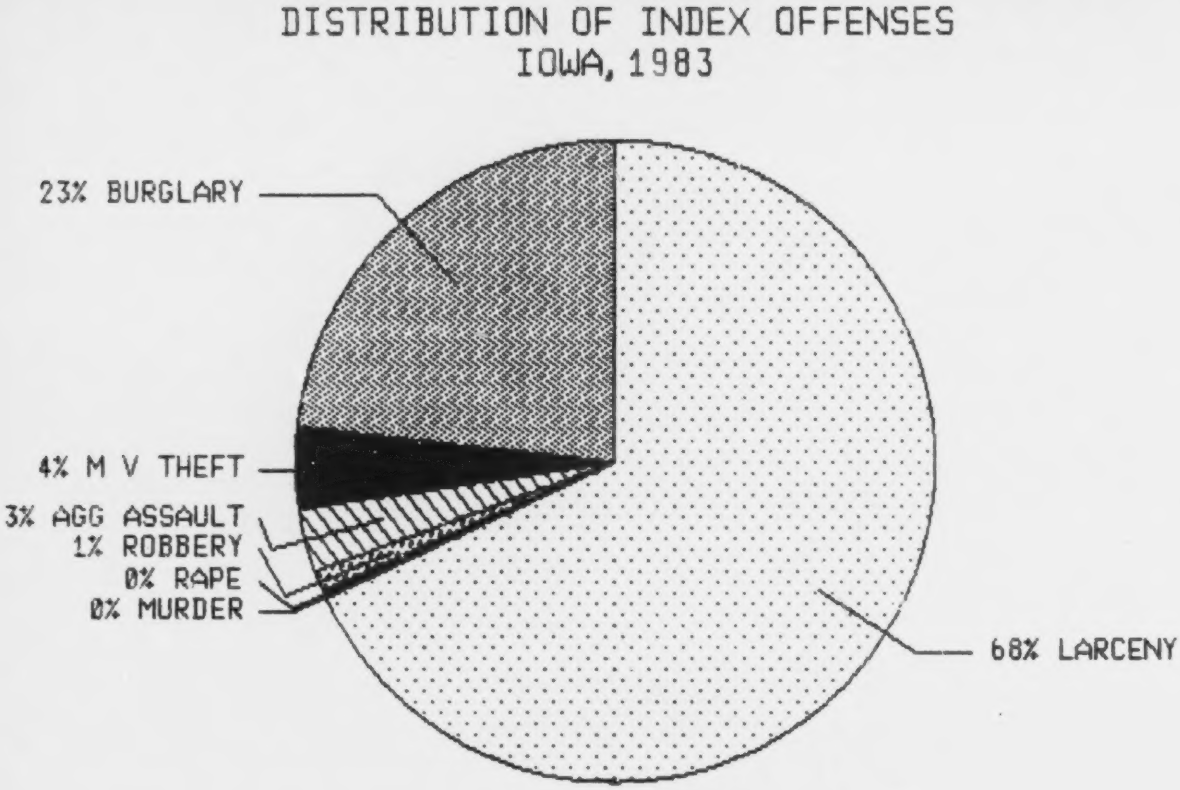

FIGURE 3 N = 113,854

II. REPORTED VIOLENT CRIME

Figure 4 shows the trend in reported violent index offenses between 1977 and 1983 in Iowa. The 5,262 reported offenses recorded in 1983 represented an increase of 3.9 percent form the 1982 figure of 5,064 reported violent index offenses. The 1983 count was 10.8 percent less than peak annual figure of 5,901 violent index offenses recorded in 1981. The 1983 figure was 27.3 percent greater than the parallel 1977 total of 4,132 violent index crimes.

Violent crime rates for the years from 1977 through 1983 are illustrated in Figure 5. This trend parallels that for reported violent crime totals shown in the previous figure. There was a 2.9 percent increase in Iowa's violent crime rate between 1982 and 1983. Iowa's violent crime rate in 1983 was 25 percent higher than the 1977 rate.

VIOLENT INDEX CRIMES
IOWA
1977 - 1983

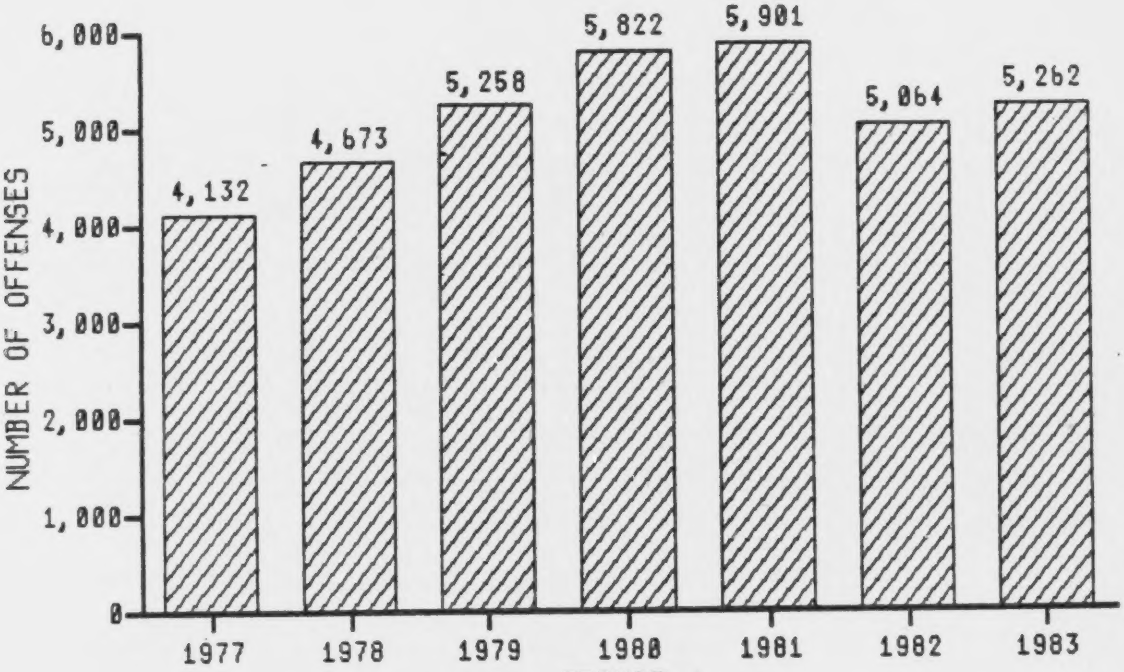

FIGURE 4

VIOLENT INDEX CRIME RATE
IOWA
1977 - 1983

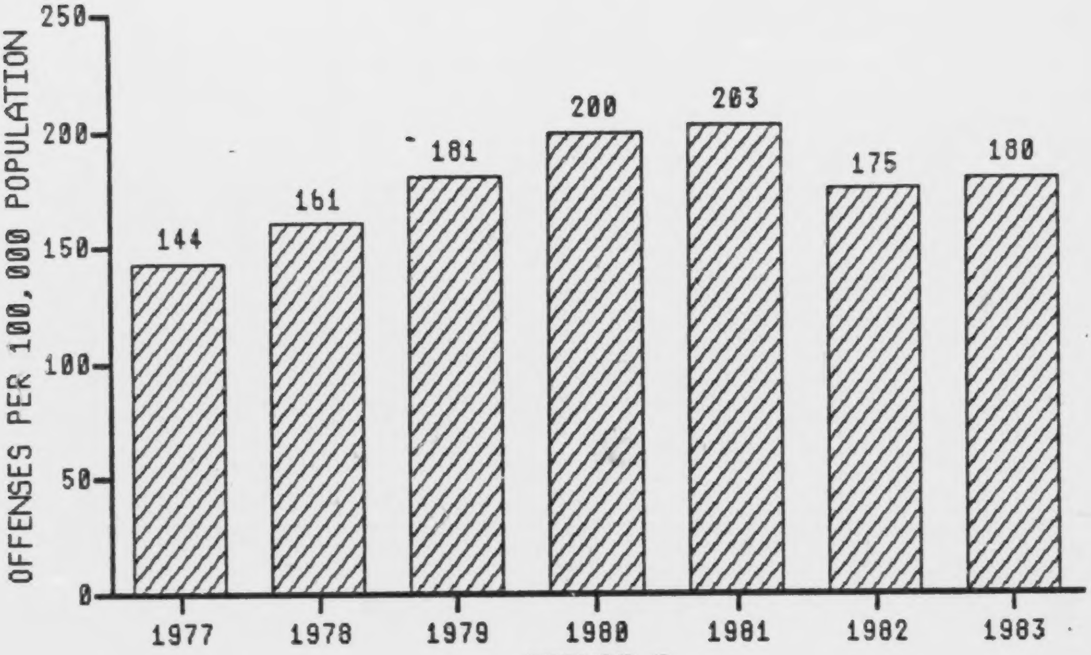

FIGURE 5

III. REPORTED PROPERTY CRIME

Annual figures for reported property crime in Iowa for the years 1977 through 1983 are represented in Figure 6. The 5.3 percent decrease in reported property index crime recorded in 1983 from 1982 was the third consecutive annual decline. There was a 1.3 percent increase in reported property index crime between 1977 and 1983.

Property crime rates are depicted in Figure 7 for the years 1977 through 1983. The 1983 rate of 3,724 reported property crimes per 100,000 population was nearly 5.8 percent lower than the 1982 rate of 3,953, and almost 17.8 percent lower than the 1980 rate (4,529). The 1982 figure was equal to the 1977 rate of reported property crime.

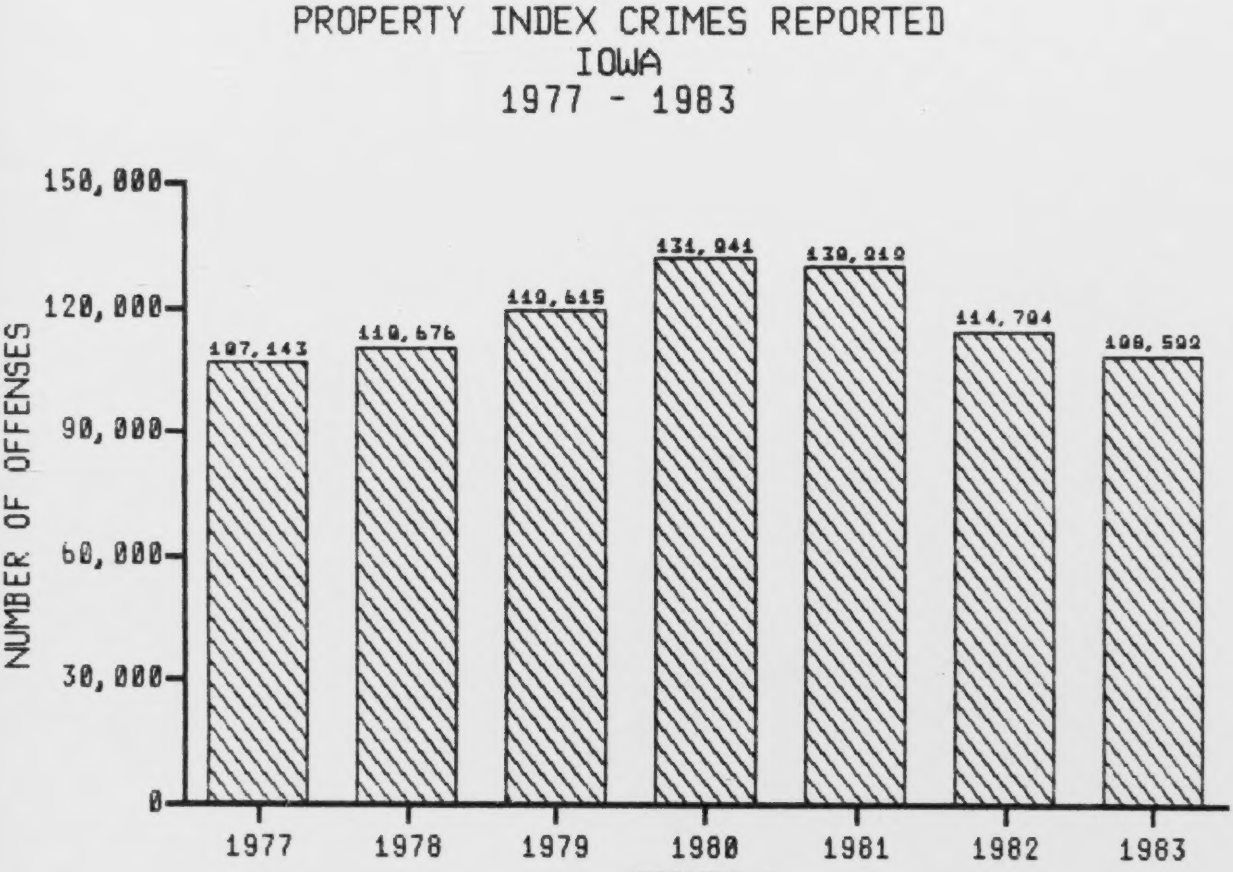

FIGURE 6

PROPERTY INDEX CRIME RATE
IOWA
1977 - 1983

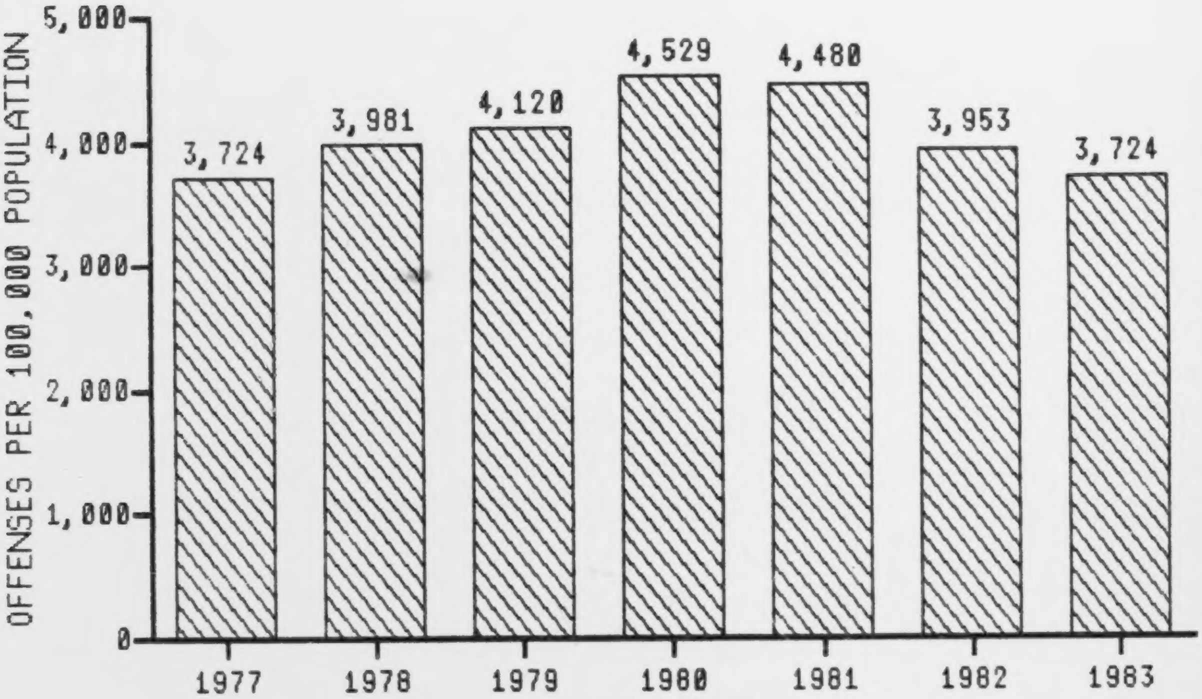

FIGURE 7

IV. VALUE OF PROPERTY REPORTED STOLEN AND RECOVERED (INCLUDING FARM THEFT)

The estimated value of property reported stolen in Iowa during 1983 was nearly 44.4 million dollars, of which 12.7 million dollars worth, or 28.7 percent was reported as having been recovered. The 44.8 million dollars of property reported stolen in the state during 1983 was 1.3 percent more than the 1982 total of 43.8 million dollars.

Figure 8 show a breakdown of the estimated dollar value of property reported stolen in Iowa during 1983. As in all prior years for which these data have been collected for Iowa, stolen motor vehicles made up the largest single category, other than "miscellaneous." Stolen vehicles accounted for 12.5 million dollars of estimated value in 1983. Motor vehicles also was the category of stolen property with the highest recovery rate, 73.2 percent.

Since 1979, the Iowa Uniform Crime Reporting System has provided for the collection of detailed information on farm-related theft. While this category accounted for only 5.7 percent of the total dollar value of property reported stolen in 1983, its significance to Iowa is based upon the central role of agriculture in the economy of the state. Of the 2.5 million dollars of property reported stolen in farm-related thefts during 1983, over 1.1 million dollars was livestock. Another significant category of property stolen in farm-related theft was farm machinery, which amounted to approximately 644 thousand dollars in 1983.

V. INDIVIDUAL INDEX OFFENSE CATEGORIES

A. MURDER

Figure 10 shows the numbers of murders recorded in Iowa each year from 1977 through 1983. During this period, the annual murder totals ranged from a low of 65 in 1979 to a high of 75 in 1981. Discerning a trend in these figures is difficult, because of the relatively small raw numbers involved. The 68 murders recorded in 1983 represented an increase of three percent from the 1982 figure of 66. The number of homicides was one percent more than the number occurring in 1977 and nine percent fewer than the 1981 figure.

Iowa's murder rate for the years 1977 through 1983 is illustrated in Figure 11. The peak annual murder rate during these years was 2.6 offenses per 100,000 estimated population in 1981. In 1982, the rate declined to 2.3 offenses per 100,000 population, where it remained in 1983.

Substantial information concerning the characteristics of murderers and their victims is manually tabulated from Supplemental Homicide Report forms submitted by local reporting jurisdictions. Data on these characteristics is illustrated in Figures 12 through 22.

Figures 12 shows the ages of murder victims during 1983. Nearly 59 percent (40) of the 68 victims were between the ages of 16 and 35. Another 11, or 16 percent of the victims were 15 years of age or under.

The sex of murder victims in 1983 is depicted in Figure 13. Forty-five of the 68 victims (66 percent) were males. This distribution is comparable to those observed in previous years.

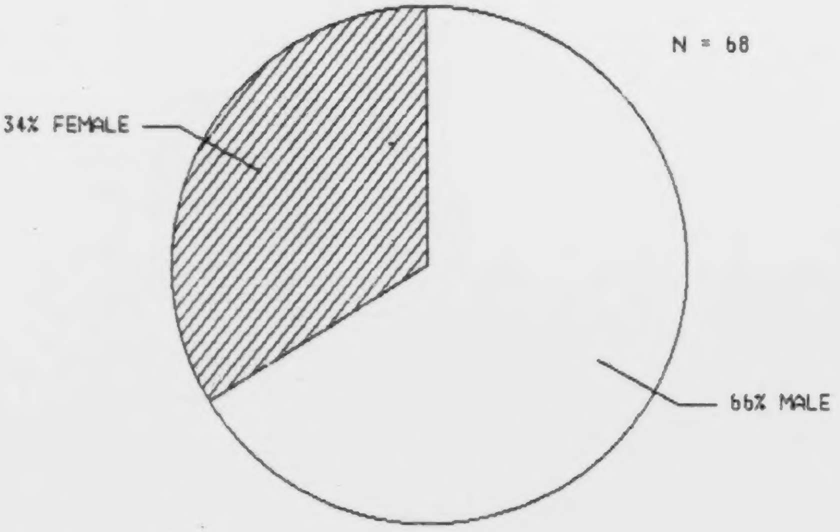

FIGURE 13

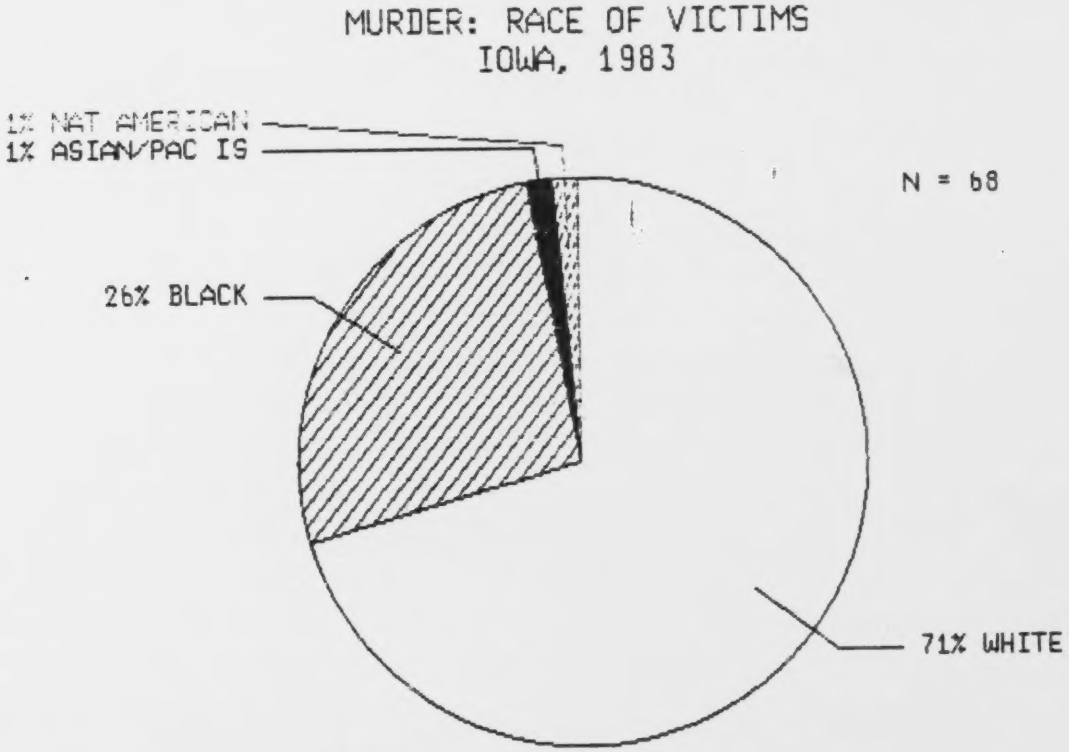

MURDER: RACE OF VICTIMS
IOWA, 1983

FIGURE 14

The racial distribution of the 68 murder victims recorded in Iowa in 1983 is illustrated in Figure 14. Forty-eight of the victims (71 %) were white. Eighteen, or 26 percent were black, and there was one victim who was of Asian or Pacific Islander origin and one Native American.

Fifty-seven murderers were identified by Iowa law enforcement agencies in 1983. The next few charts present a summary of what is known about them.

Ages of known murderers are represented in Figure 15 for 1983. Two-thirds were between the ages of sixteen and twenty-five. This is a pattern similar to ones found in prior years, although more pronounced.

Figure 16 depicts the gender of known murderers in 1983. Eight of the fifty-seven known offenders were females. This is a comparable percentage to those for previous years in Iowa.

A breakdown by race of the identified murderers for 1983 is shown in Figure 17. In 1983, 25 percent (14) of the 57 known Iowa murder offenders were black. This is quite close to the corresponding percentages for prior years.

Data on relationships between murderers and their victims is shown in Figure 18. Nearly 70 percent of the 71 known relationships involved prior acquaintance between the victim and offender. Family relationships were identified 34 percent of the time in 1983. This is somewhat more often than in either of the two previous years.

The 62 murder situations which arose in Iowa in 1983 are depicted in Figure 19. Nearly two-thirds of the murder incidents involved a single victim and a single offender.

Weapons usage in Iowa homicides during 1983 is illustrated in Figure 20. Handguns were used in 38 percent of the murders recorded in 1983. Other firearms, including ones which were not specifically identified, were used in another 14 percent of the murders.

Figure 21 depicts the circumstances of homicides recorded in Iowa in 1983. Forty-four percent of the 1983 murders stemmed from arguments, including barroom brawls and jealousies.

MURDER LOCATIONS
IOWA, 1983

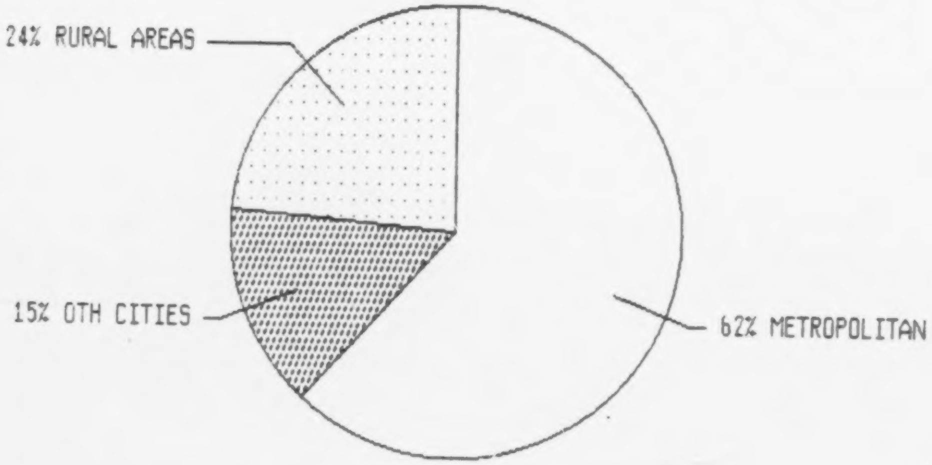

FIGURE 22 N= 68

Data on murder locations during 1983 is shown in Figure 22. Over 60 percent of the 68 homicides occurred in the State's metropolitan areas, slightly more than in either 1981 or 1982.

B. RAPE

The trend of rapes reported to Iowa law enforcement agencies from 1977 through 1983 is shown in Figure 23. The 365 forcible rapes reported in Iowa in 1983 represented an increase of less than one percent from the 1982 figure of 362. There were 19.7 percent more rapes recorded in 1983 (365) than there had been in 1977 (305). However, the 1983 figure was 11 percent lower than the peak annual figure during the period shown of 412 forcible rapes recorded in 1980.

Offense rates for reported rapes in Iowa for the years 1977 through 1983 are shown in Figure 24. In 1983, there were 12.5 rapes reported in Iowa per 100,000 estimated population, a decline of 11 percent from the peak annual rate of 14.1 rapes per 100,000 population in Iowa during 1980. The 1983 rate was nearly 18 percent higher than the 1977 rate of 10.6 forcible rapes reported to Iowa law enforcement agencies per 100,000 estimated population.

C. ROBBERY

Annual totals of robberies reported to law enforcement agencies from 1977 through 1983 are shown in Figure 25. There were 1,192 robberies reported to Iowa law enforcement agencies in 1983, a rise of 7.8 percent from the 1,106 robberies recorded in Iowa during 1982. The 1983 figure was less than one percent greater than the 1,189 robberies recorded in Iowa during 1977.

Iowa robbery rates for the years from 1977 through 1983 are shown in Figure 26. The 1983 rate of 40.9 offenses per 100,000 population was seven percent greater than the 1982 rate of 38.1, and nearly one percent lower than the 1977 rate of 41.3 offenses per 100,000 population.

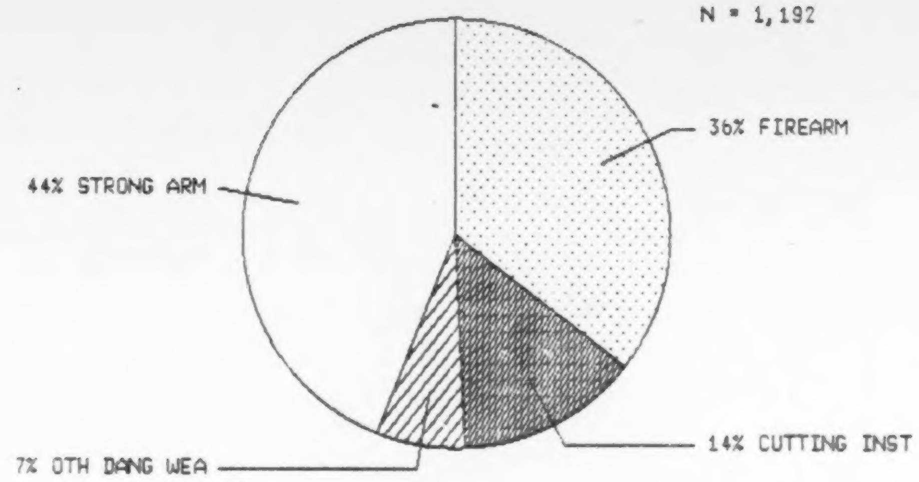

FIGURE 27

LOCATION OF ROBBERIES
IOWA, 1983

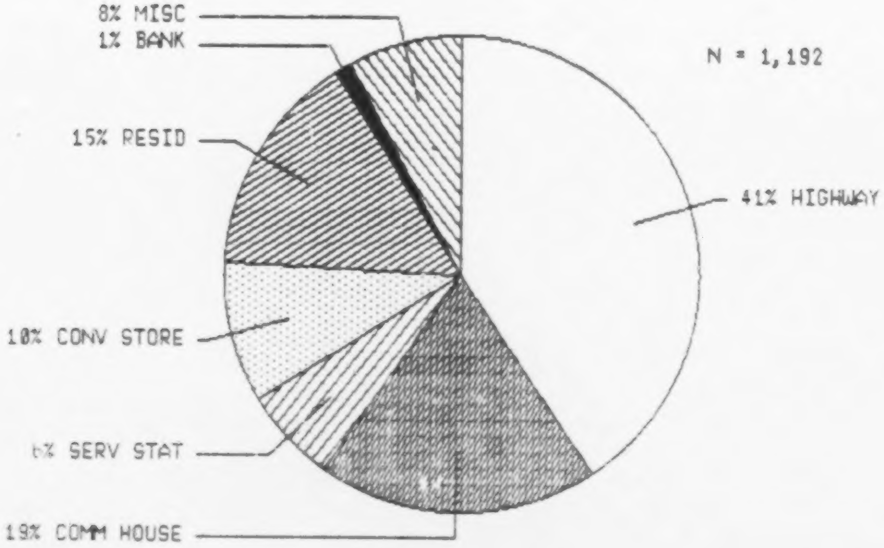

FIGURE 28

Figure 27 illustrates weapons use in Iowa robberies in 1983. Of the 1,192 robberies recorded in 1983, 36 percent involved firearms. Knives and other cutting instruments were used in 14 percent of the robberies, while, 43 percent of the reported robberies were "strong-arm," that is, committed without the use of a dangerous weapon.

Locations of robberies are depicted in Figure 28. In 1983, highway robberies made up 41 percent of the total, while residences were the targets in 14 percent of the robberies.

D. AGGRAVATED ASSAULT

Annual totals of aggaravated assaults reported to Iowa law enforcement agencies are shown in Figure 29 for the years 1977 through 1983. Increases occurred in each year shown until 1982, when there was a decline of 9.0 percent. However, there was an increase of three percent in reported aggravated assaults between 1982 (3,531) and 1983 (3,637).

Aggravated assault rates for 1977 through 1983 are illustrated in Figure 30. As with reported offenses, there were increases in each year until 1982, when the rate declined 8.8 percent from 1981. The 1983 rate (124.7) was 2.5 percent greater than the 1982 rate and 39.5 percent higher than the 1977 rate (89.4 offenses per 100,000 population).

Weapons use in aggravated assaults for 1983 is depicted in Figure 31. Personal weapons were used in 51 percent of the aggravated assaults reported in 1983, with firearms being used in 10 percent and cutting instruments in 16 percent.

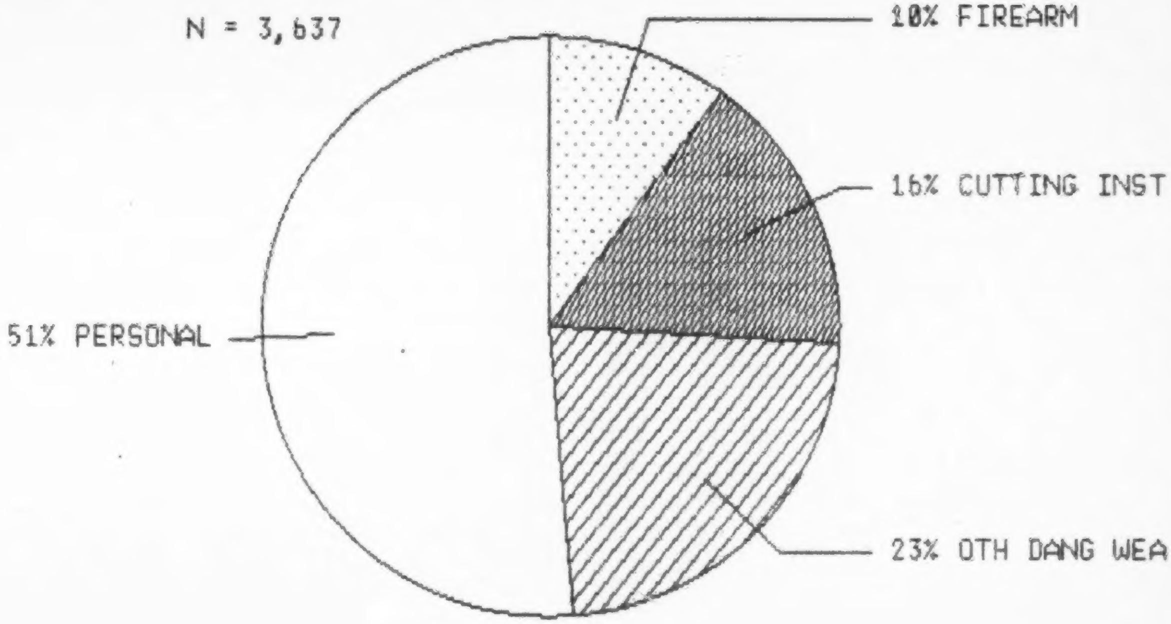

FIGURE 31

E. BURGLARY

Burglaries in Iowa have declined in each of the past three years. A decrease of 3.3 percent between 1982 and 1983 followed declines of 1.6 percent in 1981 and 10.7 percent in 1982. Reported burglaries in Iowa are represented for the years 1977 through 1983 in Figure 32.

Iowa's burglary rate for 1977 through 1983 is illustrated in Figure 33. The 1983 rate of 912.0 reported offenses per 100,000 population was 3.8 percent lower than the 1982 rate of 948.3, but 12.3 percent higher than the 1977 figure of 812.2 reported burglaries per 100,000 estimated population.

The distribution of burglaries by time of day and whether the target was residential or non-residential is shown in Figure 34. The largest categories were non-residential nighttime and residential nighttime burglaries.

Types of entry in Iowa burglaries for are summarized in Figure 35. Nearly seven of every ten reported burglaries involved forcible entry. Also, nearly one-fourth of the burglaries reported required only a non-forcible, although unlawful entry. These percentages are quite similar to ones found for prior years.

F. LARCENY

Reported larcenies in Iowa are represented in Figure 36 for 1977 through 1983. After reaching a peak for this period of 93,421 in 1980, larcenies declined by 0.5 percent in 1981 (to 92,956 reported offenses) by 11.4 percent between 1981 and 1982, to 82,372 offenses, and by an additional six percent between 1982 and 1983, to 77,410 offenses in the latter year.

Larceny rates for 1977 through 1983 are shown in Figure 37. The 1983 rate of 2,654.5 reported larcenies per 100,000 population was 1.4 percent lower than the 1977 rate. There was a drop of 6.5 percent in the larceny rate between 1982 and 1983.

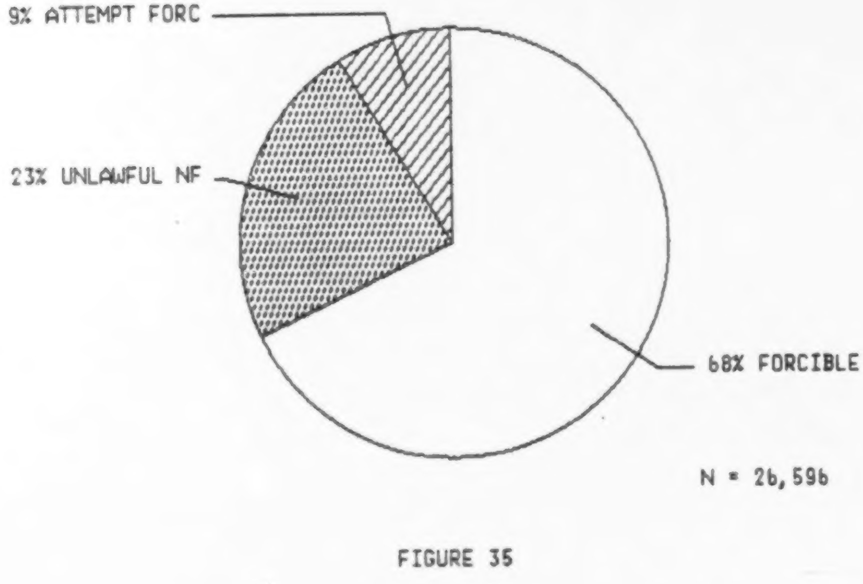

FIGURE 35

LARCENY IN IOWA
1977 - 1983

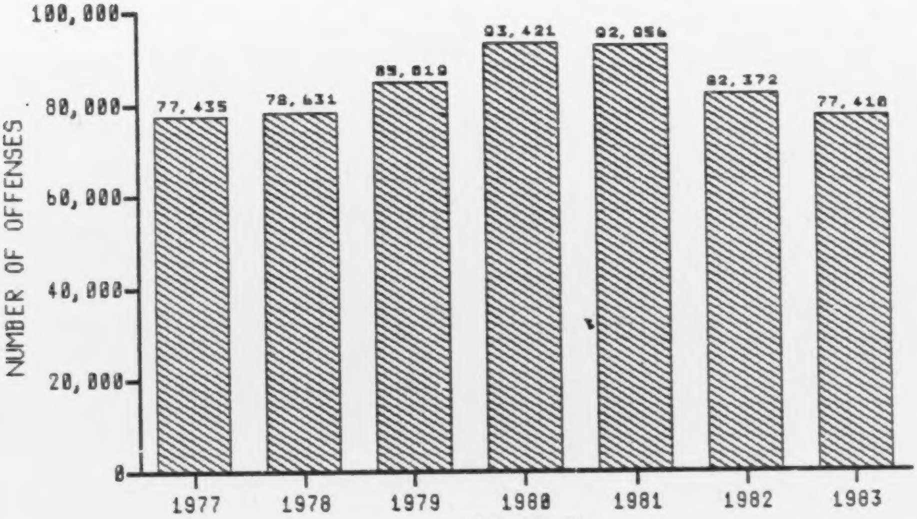

FIGURE 36

LARCENY RATE
IOWA, 1977 - 1983

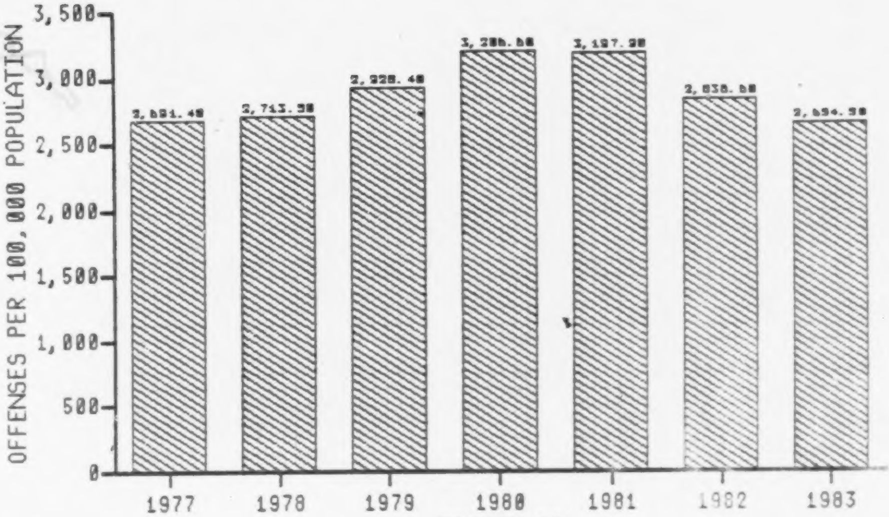

FIGURE 37

A breakdown of reported larceny by type for 1983 is shown in Figure 38. The residual "other" category was largest - 26 percent of all larcenies. Approximately one of five reported larcenies involved the theft of motor vehicle accessories, and one of every six reported larcenies involved thefts of objects from motor vehicles.

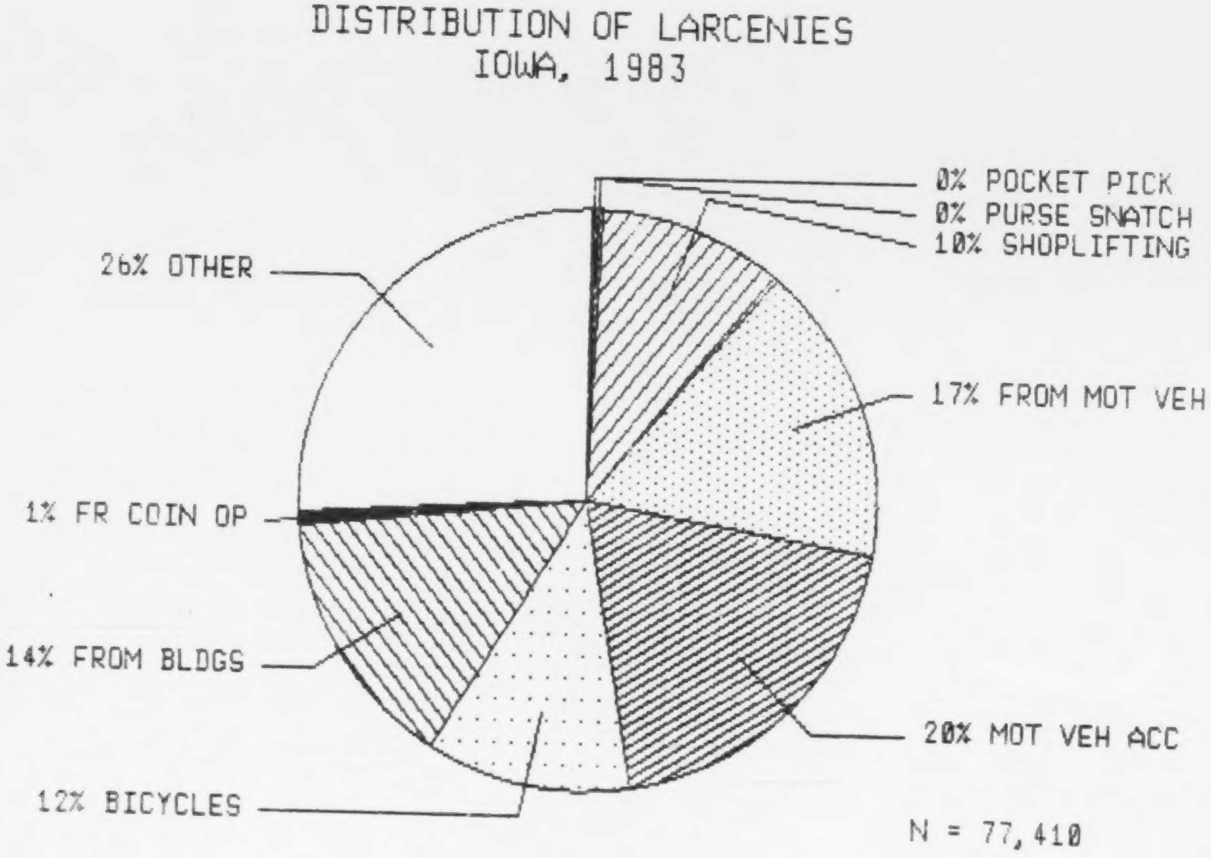

FIGURE 38

G. MOTOR VEHICLE THEFT

Annual totals of reported motor vehicle theft in Iowa for the years 1977 through 1983 are depicted in Figure 39. Motor vehicle theft has declined each year since 1979. Between 1982 and 1983, there was a decrease of 7.3 percent, from 4,946 to 4,586 offenses. The 1983 total was 27.7 percent lower than the 1977 total of 6,341 motor vehicle thefts and 41.4 percent lower than the 1979 total of 7,829 motor vehicle thefts, the peak year during the period shown in Figure 39.

Iowa's motor vehicle theft rate for the years from 1977 through 1983 is shown in Figure 40. After four consecutive years of decline, the 1982 rate (157.3 thefts per 100,000 estimated population) was 28.6 lower than the 1977 rate of 220.4.

The distribution of stolen motor vehicles in Iowa by type is shown for 1983 in Figure 41. Automobiles made up slightly 50 percent of the vehicles reported stolen, while motorcycles accounted for 27 percent of the stolen vehicles.

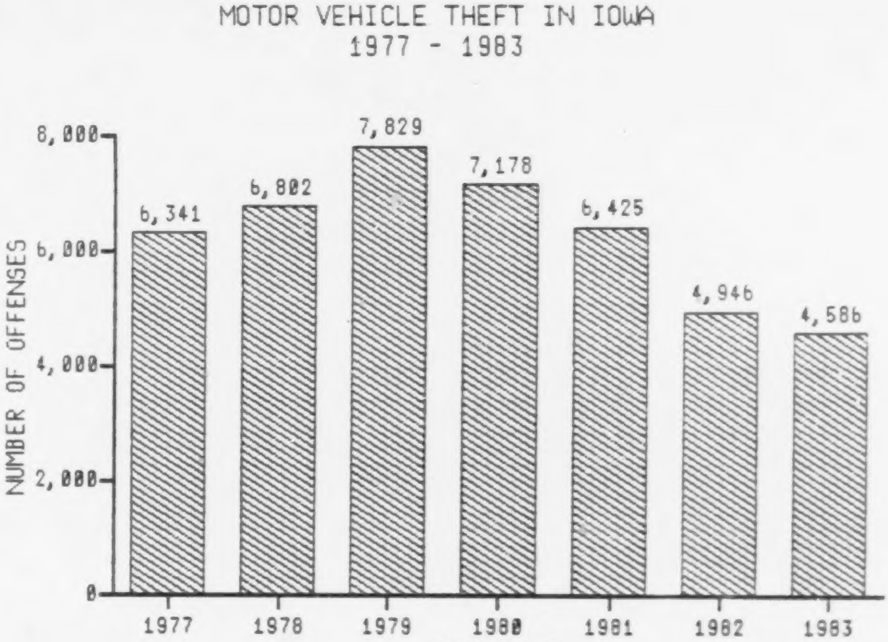

FIGURE 39

TYPES OF MOTOR VEHICLES STOLEN
IOWA, 1983

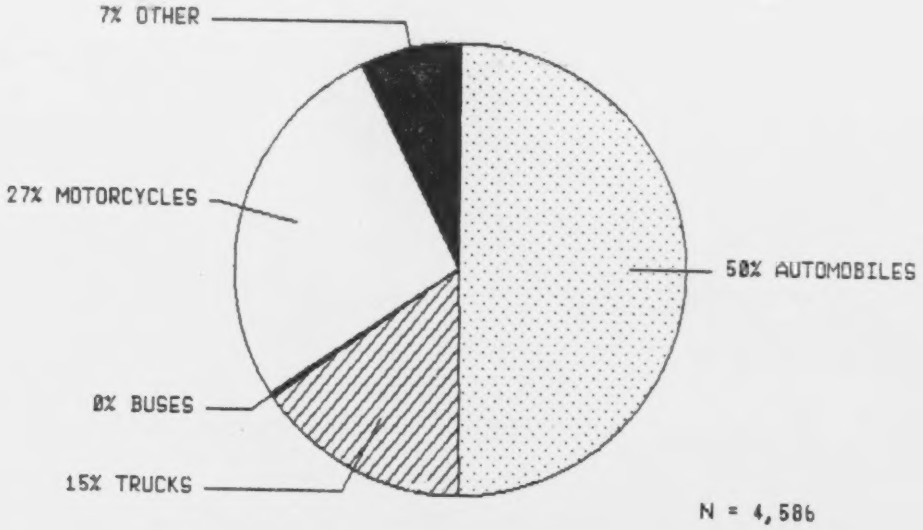

FIGURE 41

Arson was added as a reportable offense to the Iowa Uniform Crime Reporting System in 1979. Regular reporting of arson offenses began in 1980. Figure 42 illustrates annual reported arson totals for 1980 through 1983. There were 829 arsons reported in Iowa in 1983, a decline of 4.0 percent from the 1982 total of 864. The 1983 total was 39.4 percent lower than the 1980 total of 1,368 reported arsons.

The distribution of reported arsons by the type of property involved for 1983 is shown in Figure 43. Single family residences accounted for the largest number of arsons of any category - 24 percent. Motor vehicles were the targets in 19 percent of the reported arsons in each year.

* INCLUDES REPORTING POLICE DEPARTMENTS SERVING JURISDICTIONS WITH LESS THAN 50,000 POPULATION AND REPORTING SHERIFFS' OFFICES IN STANDARD METROPOLITAN STATISTICAL AREA COUNTIES (WOODBURY, POTTAWATTAMIE, POLK-WARREN, BLACK HAWK, LINN, DUBUQUE AND SCOTT)

CITIES ARE GROUPED BY POPULATION SIZE CATEGORIES (GROUP A - NOT USED. GROUP B - OVER 50,000.
GROUP C - BETWEEN 25,000 AND 50,000. GROUP D - BETWEEN 10,000 AND 25,000. GROUP E - BETWEEN 5,000 AND 10,000.
GROUP F - LESS THAN 5,000).

SUBURBAN & NON-SUBURBAN POLICE DEPARTMENTS ALSO INCLUDED IN CITY SIZE GROUPS.

THIS TABLE INCLUDES ONLY THOSE AGENCIES WITH 100% REPORTING.
